

ESTIMATED AWARDS

Any award marked “Est.” on your award is estimated. Most often estimated awards are a result of incomplete paperwork or missing documents. Once the required documents have been submitted, the estimate is removed and the award is finalized. Awards are subject to change if information on documents submitted differs from information used to make the estimated award.

ESTIMATED MARYLAND STATE GRANTS

All Maryland state grants are estimated until we receive confirmation from the state that the award is valid and the state has received all required documents. State awards are offered based on the criteria provided by the state at the time of initial awarding. If these regulations change or the data you provided is inaccurate, the award amount is subject to change or be canceled.

ESTIMATED FEDERAL PELL GRANTS, SEOG GRANTS, AND FEDERAL STAFFORD LOANS

Federal Pell Grants and Federal SEOG Grants are estimated if verification and/or federal tax returns have not been submitted or there is a problem with the information. Awards are subject to change or be canceled if documents submitted differ from information used to make the estimated award.

ESTIMATED YELLOW RIBBON GRANT

All Yellow Ribbon amounts are based on the 2010/2011 maximum in-state tuition rates since the VA will not have the 2011/2012 rates available until October. The Yellow Ribbon award is calculated based on 15 credits for both semesters. If you take more or less than 15 credits per semester your Yellow Ribbon award will change to reflect the correct number of credits.

ESTIMATED TUITION REMISSION

All estimated Tuition Remission amounts are based on information supplied by the applicant.

ESTIMATED FEDERAL PLUS LOANS

All Federal Plus loans are estimated until the parent has received credit approval and the lender has received the PLUS promissory note.
