COMMUNITY ENGAGEMENT GRANT APPLICATION

The Office of Community Engagement (OCE) and the Office of Student Affairs are committed to providing opportunities for members of the MICA community that enrich learning and contribute to the greater good of the community. If you are a student you may use this application to apply for the Office of Community Engagement Grant (CEG) as well as the Office of Student Affairs Community Service Fund (CSF). Jointly these two offices offer grant funding for MICA community members seeking support for community-engaged projects and activities.

Who is eligible for a Community Engagement Grant?
Any current MICA students, staff, faculty, or Community Art Collaborative member may apply. All applicants are required to be supervised by a MICA faculty member, staff advisor, or department head.

What types of projects qualify?
Projects should engage MICA participant in collaborating with community members to meet a particular community need or to pursue a desired outcome. Grants may be used to launch a new project or to strengthen/expand an existing one. Previous projects have ranged from after-school activities with children to community-based public art projects and social design initiatives. Letters of support from partnering organizations that confirm both the need for the project and the partnering organization’s interest in collaborating with the applicant are not required but are highly recommended and will be strongly considered in the grant review process.
