Too late to slow down

Speed kills all types of road users—drivers, pedestrians and cyclists. A 5% cut in average speed can reduce the number of fatal crashes by as much as 30%. Be part of the solution—don’t speed.

Too late to stop drinking

Consuming alcohol before driving increases the risk of a crash as well as the likelihood that death or serious injury will result. Passing a drink-driving law and enforcing it can reduce the number of road deaths by 20%.

Be part of the solution: never drink and drive.
