The Future of #1 HEALTHCARE

WHY? The baby-boom generation moves entirely into the 55 years-and-older age group by 2020, increasing that age group’s share of the labor force from 19.5 % in 2010 to 25.2 % in 2020.

20.5 MILLION New Jobs By 2020

Industries and occupations related to health care, personal care and social assistance, and construction are projected to have the fastest job growth between 2010 and 2020. Total employment is projected to grow by 14.3 percent over the decade, resulting in 20.5 million new jobs.

The 2010-20 projections incorporate a new BLS system that depicts education, training, and related work experience typically needed for occupations. In occupations in which a master’s degree is typically needed for entry, employment is expected to grow by 21.7 percent, faster than the growth rate for any other education category. In occupations in which apprenticeship is the typical on-the-job training, employment is expected to grow by 22.5 percent, faster than for any other on-the-job training category.
